

Waterboy's Free Irrigation Design Service

To use our free design service, please gather the information requested, print of graph paper if desired, draw in plan of your property showing all patios, decks, buildings, sidewalks, large trees and shrub beds. Indicate where the water supplies are to the outside walls. Send it back to us and we will design a complete irrigation system for your yard and give you a quote on material supplied to you and complete instruction on how to install it yourself (upon acceptance of quotation and payment of supplies)- anywhere in Canada!
